

What is NIOSHA?

The Northern Occupational Safety and Health Association (NOSHHA) is a nonprofit organization founded in 2001 in the state of North Dakota to provide regional safety professionals a forum for sharing safety concerns, goals, and methods for promoting workplace safety.

Each year as part of its mission, NOSHHA sponsors an educational safety seminar intended to build the skills of safety professionals and promote awareness of occupational safety. These seminars are FREE and open to the public.

**SPECIAL INVITATION TO THE “PRESCRIPTIONS FOR SAFETY”
2008 NOSHHA SAFETY SEMINAR
SPONSORED BY NOSHHA - FREE AND OPEN TO THE PUBLIC!**

You Are Cordially Invited...

to **“Prescriptions for Safety”** by the Safety Doctor, Isabel Perry. Dr. Perry is a much sought-after safety speaker delivering content-rich presentations and safety training workshops that are peppered with humor.

This educational and informative program is offered as a service to the community and is intended as a means of enhancing professional skills and promoting awareness of workplace safety. Prescriptions for Safety is a highly interactive presentation that will have attendees out of their seats and fully engaged with the pertinent content. It is very helpful to anyone who conducts safety meetings, toolbox talks or other employee training and is packed with practical tips and techniques that can be applied to any committee, association or group meeting!

For complete seminar information and on-line registration please visit us on the World Wide Web at www.nosha.net.

“Prescriptions for Safety” by the Safety Doctor, Isabel Perry

1st Appointment:

8:30-9:30 AM

SEVEN SINS OF SAFETY: CURING BAD BEHAVIORS THAT ARE PREDICTORS OF ACCIDENTS

Symptoms/Ailments: Indifference, Procrastination, Lack of knowledge, Denial, Lack of Focus, Fatigue and Complacency

Diagnosis: The Seven Sins of Safety are behaviors that are precursors of near misses and, even worse, accidents. They injure/kill employees and drive up business costs.

Cure: The Safety Doctor will identify these systemic ailments, provide symptoms and prescribe the antidotes to help you recognize and cure the problems in your organization. This highly interactive presentation will have attendees out of their seats and fully engaged with the pertinent content.

2nd Appointment:

10:00 AM – 12 NOON

EFFECTIVE SAFETY COMMITTEES: TOOLS AND TECHNIQUES TO PUMP LIFE INTO YOUR MEETINGS

Symptoms: Meetings start late, not everyone participates, we don't get things done, we hash over the same issues, we lack a plan, we don't know how to set priorities, boring meetings, employees don't want to volunteer for our team, members don't show up, a few people do all the work

Diagnosis/Ailments: Results and progress are both slow. Cooperation and participation is low. Time is money and we are wasting both.

Cure:

- ⇨ Six tips for more effective committees
- ⇨ Ten duties of all safety committee members
- ⇨ Four stages of team dynamics
- ⇨ Five Keys to agendas that deliver results quicker
- ⇨ Three group process techniques for 100% participation

Don't miss this great opportunity for FREE valuable information! ON-LINE REGISTRATION ONLY @ www.nosha.net
