

What is NOSHA?

The Northern Occupational Safety and Health Association (NOSHA) is a nonprofit organization founded in 2001 in the state of North Dakota to provide regional safety professionals a forum for sharing safety concerns, goals, and methods for promoting workplace safety.

Each year as part of its mission, NOSHA sponsors an educational safety seminar intended to build the skills of safety professionals and promote awareness of occupational safety. These seminars are FREE and open to the public.

Special Invitation to the "Spice It Up"

2007 NOSHA Safety Seminar
Sponsored by NOSHA and WSI. Free and open to the public!!

You Are Cordially Invited . . .

to "spice-up" your occupational safety program with a FREE training seminar, presented by Richard Hawk. Richard Hawk is a nationally recognized figure in the safety field, with over ten years of experience as a nuclear industry safety engineer and management trainer. He has also served as a safety consultant on construction sites.

This educational and informative program is offered as a service to the community and is intended as a means of enhancing professional skills and promoting awareness of workplace safety. Spice It Up is a highly interactive presentation appropriate for anyone who conducts safety meetings, toolbox talks or other employee training and is packed with practical tips and techniques for getting through to even the most jaded employees.

For complete seminar information and on-line registration please visit us on the world wide web at www.nosha.net.

More Fun and Effective at the**

2007 NIOSH Safety Seminar Spice It Up!

Presented by Richard Hawk

October 10th, 2007

Chester Fritz Auditorium
3475 University Avenue
Grand Forks, North Dakota 58203

8:00 am - 12 Noon
Check-In begins at 7:30 am

Register on-line at www.niosh.net

If you would like to receive a Certificate of Attendance be sure to check YES on the registration form. Certificates cannot be issued without a complete mailing address.

Richard Hawk, a leading expert in bringing fun to the safety field, will share easy techniques to capture and keep an adult audience's attention. Besides learning new ways to improve your safety training and meetings you'll also have a good time.

Best of all, he guarantees you'll leave with dozens of tips and tactics you can use right away.

You'll learn how to:

- Use props to capture and hold audience attention
- Even overcome boredom with topics that are familiar or technical
- Connect with employees to transform apathy into action
- Ensure people make safety a personal issue
- Master proven methods to eliminate distractions in meetings
- Make your message stick with a memorable conclusion
- Liven up any chosen safety topic
